

# Wubbzy's Little Helper Apron

Spend time with your kids this summer by having them help out in the kitchen, mixing or adding ingredients to your favorite summertime treats. Prepare them for the dirty work of cooking with their own WUBBZY apron!

## What you'll need:

- Iron
- Iron-on transfer paper
- Child's apron in white (found at local craft store)
- Wubbzy Images (see the following page of this PDF)

## Directions:

- Pre-wash and dry apron(s)
- Using an ink-jet printer and iron-on transfer paper suited for light fabrics, print out the Wubbzy images (from the following page). Have your child pick one, two or all three images... it's up to them!
- Iron the image onto the front of the apron by following the instructions on the back of the iron-on paper package. Now your little helper's ready to cook!
